

Zion's in person worship guide.

Your comfort and safety are very important to us! We want you to know what to expect should you choose to worship in-person at Zion Lutheran Church. As the safety guidelines change, we will update our protocols and adjust our opportunities to be together. For the safety of our community, we appreciate your understanding and require your compliance with the following:

Register. We are a small congregation so we will not be requiring online reservations but you will be asked to sign in when you come in the building and share a way to contact you just in case.

Enter at the blue door (north side) if possible. The building will be open ten minutes prior to worship and you will be warmly greeted by ushers who will assist your movements throughout the worship experience.

Masks are required. For the safety of our community, everyone is required to wear a mask at all times while in the building. Social distancing will be honored. Household units are expected to maintain the required six feet of social distance from other households. Windows will be open in the sanctuary to increase ventilation and you will be asked to use hand sanitizer when you enter the building.

Not Quite Yet. Our worship experience will continue to evolve as we gradually reopen! Communion will be self-administered as you leave the sanctuary and there will be a basket near the exit for offering. For now, in-person worship will not include singing or use of the hymnals. Take your bulletin home with you and bring it back. There will be a new one each month.

Soon. There will be no pre- or post-worship fellowship at this time.

Assess your health. Our community's safety will rely on a self-assessment of your health and the health of others in your household.

- Do you feel sick or do you have any of the following symptoms of COVID-19: fever, new cough, shortness of breath, chills, headache, muscle pain, sore throat, fatigue, congestion, loss of taste or smell.
- Have you cared for or have you had close contact within the last 14 days with someone who has COVID-19 or who has symptoms of COVID-19?
- If anyone in your home answers "yes" to one or more of these questions, please stay home and worship with us online!

As health and safety guidelines change, our worship and fellowship opportunities will evolve. We are grateful for your patience and flexibility!
